then the long awaited spirit manifestation from Dr. Hyslop has at last been received. Dr. Prince, who is chief investigator of the Psychical Research Society, has identified the faint outline of a face appearing on an ordinary flashlight photograph recently taken at a spiritual seance as that of his departed friend and collaborator.

The photograph was taken last Monday at a meeting of twelve physicians and writers interested in spiritual phenomena in the home of Dr. Edward F. Bowers in West End avenue. The plates from which the photograph was made were ordinary ones which were purchased and brought to the seance by Fulton Oursler, amateur magician, and Robert T. Hardy, of 25 West Forty-second street. There, in Dr. Bower's apartment a camera was focused on a couch in the center of the room, the lights were lowered, and Miss Marie Haviland, a trained nurse of 1603 Gravesend avenue, Brooklyn, who had never undergone such an experience before, was hypnotized by Dr. Bowers as she lay on the couch. Almost immediately she began to speak in a Jargon little of which was intelligible to the onlookers but some of which was recognized by W. Adolphe Roberts, editor of the National Pictorial, as words or terms sometimes used by gypsies.

It Looks Like Dr. Hyslop.

After Miss Haviland had talked for a few moments the lights were extinsuised and four flashlight photographs were taken of the room and its occurrence of

Notwithstanding the fact that he purchased the photograaphic plates himself and was present when the experiment was made. Mr. Oursier is not altogether satisfied that the spirit photograph is not a fake and will attempt to reveal it as such. To this end he has interested Howard Thurston, the magician. Both Mr. Oursier, who is described by some of his friends as a "Doubting Thomas," and Mr. Thurston have done much valuable work in unmasking some of the fake mediums who have preyed on a guilible public.
